INTERNATIONAL JOURNAL OF GEOGRAPHICAL INFORMATION SCIENCE

EDITOR
Professor Brian G. Lees,
School of Physical, Environmental & Mathematical Sciences,
University of New South Wales,
Australian Defence Force Academy,
Northcott Drive,
Canberra ACT 2600,
Australia
Tel: +61 2 626 88314
Email: b.lees@adfa.edu.au

North American Editor:
Professor May Yuan,
College of Atmospheric and Geographic Sciences,
Department of Geography,
The University of Oklahoma,
Sarkeys Energy Center, Room 618,
100 East Boyd Street,
Norman, Oklahoma 73019-1008, U.S.A.
Tel: (405) 325-4293 office
Email: myuan@ou.edu

European Editors:
Dr Monica Wachowicz,
Centre for Geo-Information,
Wageningen University,
P.O. Box 47, 6700 AA,
Wageningen,
The Netherlands
Email: monica.wachowicz@wur.nl

Dr. Ir. S. (Sytze) de Bruin,
Wageningen University,
Centre for Geo-information,
P.O. Box 47,
6700 AA Wageningen,
The Netherlands
Tel: +31 (0)317 - 481830
Email: sytze.debruin@wur.nl

Book Review Editor:
Dr Alexis Comber,
Director of the MSc in GIS,
Department of Geography,
University of Leicester,
Leicester LE1 7RH,
United Kingdom
Email: ajc36@leicester.ac.uk

Editorial

Recent Trends in IJGISc
B. Lees 1

Research Articles

A kernel density estimation method for networks, its computational method and a GIS-based tool
A. Okabe, T. Satoh and K. Sugihara 7

Event-based topology for dynamic planar areal objects
J. Jiang and M. Worboys 33

An improved Fuzzy Kappa statistic that accounts for spatial autocorrelation
A. Hagen-Zanker 61

Detection of multi-scale clusters in network space
S. Shiode and N. Shiode 75

Extracting geographic features from the Internet to automatically build detailed regional gazetteers
D. W. Goldberg, J. P. Wilson and C. A. Knoblock 93

Book reviews

Image Analysis, Classification and Change Detection in Remote Sensing, with algorithms for ENVI/IDL (M. J. Canty)
P. Aplin 129

Geospatial Information Technology for Emergency Response (S. Zlatanova and J. Li)
V. Karasová 131

Research Articles

Geostatistical modeling of sedimentological parameters using multi-scale terrain variables: application along the Belgian Part of the North Sea
E. Verfaillie, I. Du Four, M. van Meirvenne and V. van Lancker 135

Sensitivity analysis of spatial models
L. Lilburne and S. Tarantola 151

A theoretical approach to the use of cyberinfrastructure in geographical analysis
S. Wang and M. P. Armstrong 169

Developing geographic information infrastructures: the role of access policies
B. van Loenen 195

Computation of the third-order partial derivatives from a digital elevation model
I. V. Florinsky 213

A spatiotemporal data model for river basin-scale hydrologic systems
J. L. Goodall and D. R. Maidment 233

Cross-agency coordination in the shadow of hierarchy: 'joining up' government geospatial information systems
K. T. Lance, Y. Georgiadou and A. K. Bregt 249

Volume 23 Numbers 3–4 March–April 2009

Research Articles

An architectural style for spatial data infrastructures
R. Béjar, M. Á. Latre, J. Nogueras-Iso, P. R. Muro-Medrano and F. J. Zarazaga-Soria 271

Representing geographical objects with scale-induced indeterminate boundaries: A neural network-based data model
J. L. Silván-Cárdenas, L. Wang and F. B. Zhan 295

Topological feature vectors for exploring topological relationships
R. Praing and M. Schneider 319

Determining directional distances between points and shorelines using sweep line technique
M. Murtojärvi, V. Leppänen and O. S. Nevalainen 355

Technical Communications

Comment on 'Marine GIS: Identification of mesoscale oceanic thermal fronts'
F. J. Simmonds, X. H. Wang and B. G. Lees 369

Reply to Comment on 'Marine GIS: Identification of mesoscale oceanic thermal fronts'
V. Valavanis, I. Katara and A. Palialexis 375

Research Articles

Spatiotemporal analysis of rural–urban land conversion
B. Huang, L. Zhang and B. Wu 379

Intelligent GIS for solving high-dimensional site selection problems using ant colony optimization techniques
X. Li, J. He and X. Liu 399

Dynamic hybrid terrain representation based on convexity limits identification
M. Bóo and M. Amor 417

Implementation of an adaptive salinity risk framework in the Condamine catchment, Queensland Murray-Darling Basin, Australia
A. J. W. Biggs, R. D. Searle, K. M. Watling, K. E. Secombe and L. M. Larkin 441

Geographically intelligent disclosure control for flexible aggregation of census data
C. Young, D. Martin and C. Skinner 457

Carto-SOM: cartogram creation using self-organizing maps
R. Henriques, F. Bação and V. Lobo 483

Exploring spatially prioritized parameters of Feng-Shui from tomb footprint
J.-S. Um 513

Finding shortest paths on real road networks: the case for A*
W. Zeng and R. L. Church 531

Book Reviews 545

In Memoriam: Peter Alan Burrough 551

Volume 23 Number 5 May 2009

Special Issue: Distributed Geographic Information Processing Research
Guest Editors: Chaowei Yang and Robert Raskin

Introduction to distributed geographic information processing research
C. Yang and R. Raskin 553

Service chaining architectures for applications implementing distributed geographic information processing
A. Friis-Christensen, R. Lucchi, M. Lutz and N. Ostländer 561

Use of grid computing for modeling virtual geospatial products
A. Chen, L. Di, Y. Wei, Y. Bai and Y. Liu 581

Developing a grid-enabled spatial Web portal for Internet GIServices and geospatial cyberinfrastructure
T. Zhang and M.-H. Tsou 605

TeraGrid GIScience Gateway: Bridging cyberinfrastructure and GIScience
S. Wang and Y. Liu 631

Interoperability of functions in environmental models – a case study in hydrological modeling
S. Hu and L. Bian 657

Book reviews 683

Volume 23 Number 6 June 2009

Research Articles

Framework for enterprise GIS for Saudi municipalities
W. A. Abdulaal 687

A three-dimensional Douglas–Peucker algorithm and its application to automated generalization of DEMs
L. Fei and J. He 703

Assessment of sliver polygons in geographical vector data
M. Delafontaine, G. Nolf, N. van de Weghe, M. Antrop and Ph. de Maeyer 719

Classification through consultation: public views of the geography of the e-Society
P. A. Longley and A. D. Singleton 737

A spatio-temporal ontology for geographic information integration
T. Bittner, M. Donnelly and B. Smith 765

On A* search with stopover areas
T. Sander and P. Wehner 799

Book review 821

Volume 23 Numbers 7–8 July–August 2009

Research Articles

Ranking spaces for predicting human movement in an urban environment
B. Jiang 823

Ant intelligence for solving optimal path-covering problems with multi-objectives
X. Li, J. He and X. Liu 839

Assessing housing growth when census boundaries change
A. D. Syphard, S. I. Stewart, J. McKeefry, R. B. Hammer, J. S. Fried, S. Holcomb and V. C. Radeloff 859

Qualified topological relations between spatial objects with possible vague shape
L. Bejaoui, F. Pinet, Y. Bedard and M. Schneider 877

A GeoAgent-based framework for knowledge-oriented representation: Embracing social rules in GIS
C. Yu and D. J. Peuquet 923

A data-mining approach for assessing consistency between multiple representations in spatial databases
D. Sheeren, S. Mustière and J.-D. Zucker 961

Creating and delivering augmented scenes
J. E. Mower 993

Selective omission of road features based on mesh density for automatic map generalization
J. Chen, Y. Hu, Z. Li, R. Zhao and L. Meng 1013

Street hierarchies: a minority of streets account for a majority of traffic flow
B. Jiang 1033

A comparative analysis of DEM-based models to estimate the solar radiation in mountainous terrain
J. A. Ruiz-Arias, J. Tovar-Pescador, D. Pozo-Vázquez and H. Alsamamra 1049

A less-is-more approach to geovisualization – enhancing knowledge construction across multidisciplinary teams
C. E. Jones, M. Haklay, S. Griffiths and L. Vaughan 1077

Volume 23 Numbers 9–10 September–October 2009

Research Articles

Modeling uncertainty of moving objects on road networks via space–time prisms
B. Kuijpers and W. Othman 1095

Street-based topological representations and analyses for predicting traffic flow in GIS
B. Jiang and C. Liu 1119

Semantic Web Services-based process planning for earth science applications
P. Yue, L. Di, W. Yang, G. Yu, P. Zhao and J. Gong 1139

A new methodology for measuring coastline recession using buffering and non-linear least squares estimation
J. Heo, J. H. Kim and J. W. Kim 1165

Address databases for national SDI: Comparing the novel data grid approach to data harvesting and federated databases
S. Coetzee and J. Bishop 1179

Evaluating the effects of land-use development policies on ex-urban forest cover: An integrated agent-based GIS approach
D. T. Robinson and D. G. Brown 1211

GIS, multi-criteria and multi-factor spatial analysis for the probability assessment of the existence of illegal landfills
G. Biotto, S. Silvestri, L. Gobbo, E. Furlan, S. Valenti and R. Rosselli 1233

ST-DMQL: A Semantic Trajectory Data Mining Query Language
V. Bogorny, B. Kuijpers and L. O. Alvares 1245

Effects of lidar post-spacing and DEM resolution to mean slope estimation
T. E. Chow and M. E. Hodgson 1277

A discrete square global grid system based on the parallels plane projection
T. Ma, C. Zhou, Y. Xie, B. Qin and Y. Ou 1297

An Indoor Routing Algorithm for the Blind: Development and Comparison to a Routing Algorithm for the Sighted
M. Swobodzinski and M. Raubal 1315

Review Article

An overview on current free and open source desktop GIS developments
S. Steiniger and E. Bocher 1345

Volume 23 Numbers 11–12 November–December 2009

Research Articles

Evaluating the Temporal and Spatial Urban Expansion Patterns of Guangzhou from 1979 to 2003 by Remote Sensing and GIS Methods
F. Fan, Y. Wang, M. Qiu and Z. Wang 1371

Multi-scale spatiotemporal analyses of moose–vehicle collisions: a case study in northern Vermont
G. Mountrakis and K. Gunson 1389

Introducing scale parameters for adjusting area objects in GIS based on least squares and variance component estimation
X. Tong, W. Shi and D. Liu 1413

Sensitivity analysis of a decision tree classification to input data errors using a general Monte Carlo error sensitivity model
Z. Huang and S. W. Laffan 1433

A new algorithm for distance cartogram construction
E. Shimizu and R. Inoue 1453

Positioning localities based on spatial assertions
Y. Liu, Q. H. Guo, J. Wieczorek and M. F. Goodchild 1471

Quality assessment of linear data
S. Seo and C. G. O'Hara 1503

Research on the Urban Influence Domains in China
S. Liang 1527

Multi-criteria evaluation and least-cost path analysis for optimal haulage routing of dump trucks in large scale open-pit mines
Y. Choi, H.-D. Park, C. Sunwoo and K. C. Clarke 1541

An efficient domain decomposition framework for accurate representation of geodata in distributed hydrologic models
M. Kumar, G. Bhatt and C. J. Duffy 1569
